## Your project deserves the best.

With over 35 years of experience, Waterplay has helped shape thousands of aquatic play spaces around the world. Our design theory is strict, our quality is unmatched and our products create treasured play spaces that stand the test of time.

## Superior Quality

Waterplay strives to deliver the highest standards in the industry through the products that we offer, the people we employ, the in-house procedures we put in place and the partners and suppliers we work with.

## Expert Teams

Our Waterplayers will guide you through the design process and beyond. Our team of experts is comprised of research and design specialists, engineers, in-house manufacturing and logistics, sales and marketing support, on-site service and training, as well as project support specialists.

## C.A.R.E. Values

A belief that every task we undertake deserves the utmost **Commitment**, is approached with the **Attitude** that anything is possible, is fueled by teamwork based on mutual **Respect** and promotes an environment of **Equality** and collaboration.

## Accountability

As a community-minded company, we know safety is paramount when it comes to the people we love. At Waterplay, we value the confidence you place in us and stand behind all of our products, from concept to completion and beyond.

**Our purpose is to create a global community connected through play and social experiences.**

# PROVEN DESIGN PHILOSOPHY

Celebrated play spaces have something in common: exceptional products. From their unique functions, materials and technologies to the social experiences they nurture, Waterplay's products bring leading design philosophies to your project.

## Inclusion

Our products are designed for maximum participation. Using universal design principles, and both ADA and ASTM safety standards, our products create rewarding play experiences for all ages and abilities.

## Sustainability

Our non-toxic materials and coatings ensure safety for Waterplayers and the environment. We are committed to designing products with low-flow rates and optimized water use through activation, sequencing and water management best practices.

## Experience

The true value of play comes from the experiences we have. When play is fun, fresh and exciting for a child, learning flows naturally. Waterplay products focus on collaboration, physical movement, scientific inquiry, make believe and challenging play, and supporting the unique development stages of every Waterplayer.

# Play should be free

Developing minds and bodies need freedom to test their abilities. Based on the philosophies of unstructured, free play, we recommend creating spaces that aren't limited by age or physical ability, but instead are thoughtfully created to allow Waterplayers to choose their own adventures and distinguish their own boundaries.

Waterplay's three action zones were defined to inspire, embolden and energize Waterplayers around the world through environments that foster specific styles of play.

## ADVENTURE Zone

---

**Big splashes and non-stop activity!  
The Adventure Zone is full of energy and excitement.**

Big water effects and continuous action energize the senses and creates excitement.

Fast pace encourages quick-thinking and promotes physical movement.

Centrally placed and ready for action.

## EXPLORATION Zone

---

**Spray, dump, splash, team up and take on challenges.  
This universal space invites collective fun.**

Play elements and water effects that spark inquiry and encourage physical movement.

Multiple opportunities for collaboration and interactive play.

Provides a stepping stone between the discovery and adventure areas for a seamless play experience.

## DEVELOPMENT & DISCOVERY Zone

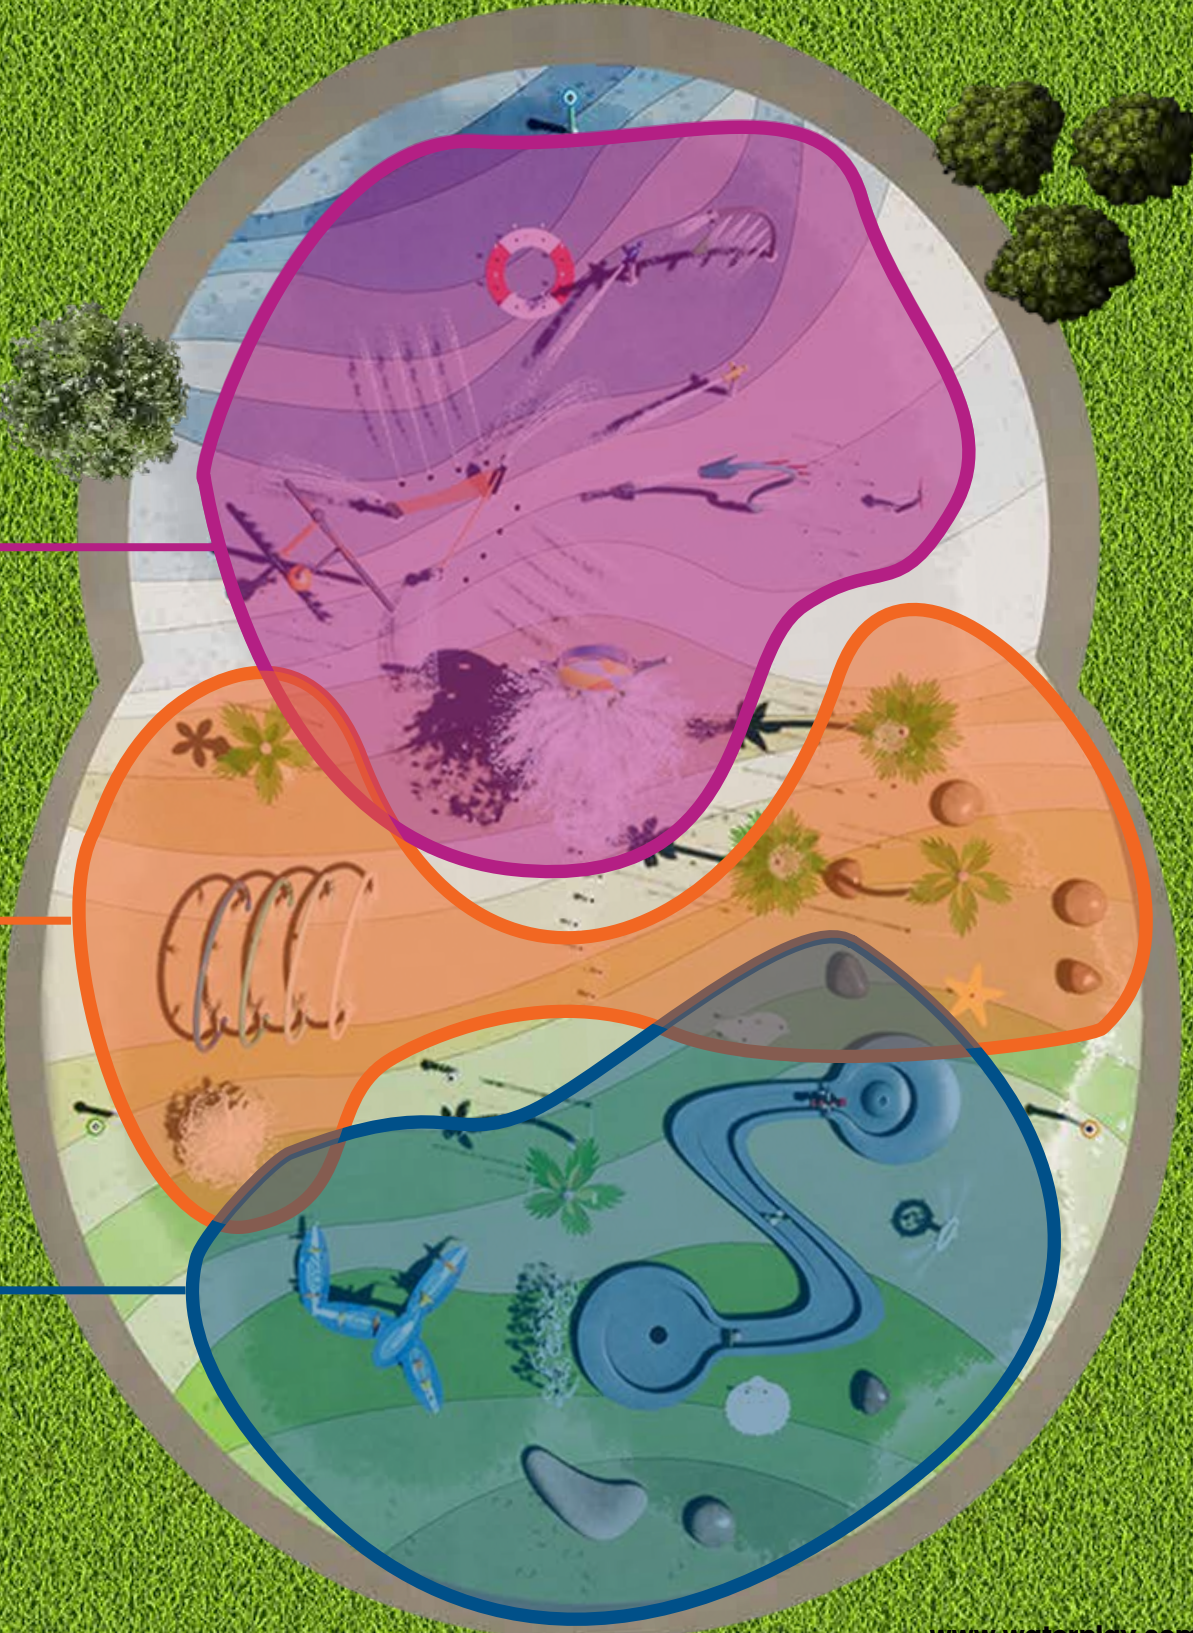

---

**A space for thoughtful and contemplative  
play that moves at a mindful pace.**

Gentle water effects for reduced stimulation.

Cognitive play opportunities facilitate deep learning and flexible thinking for individual and group play.

Situated along the outside perimeter and away from the adventure zone for a relaxed play experience.

# PLAYPHASE™

## Anchoring System

Don't limit the possibilities of your next aquatic play project. Phase your installation, switch out spray features or plan for future expansions with **playPHASE™**, Waterplay's flush-to-grade, tamper-resistant play feature anchoring system.

- ✓ Prepare your project site before the spray features arrive.
- ✓ Flush-to-grade design safely conceals hardware.
- ✓ 8 bolt pattern for flexible feature orientation.
- ✓ Sleek and seamless for a flawless play space.
- ✓ A size compatible with all Waterplay aquatic features.
- ✓ No toe guards or dome covers required.
- ✓ Simplified installation for a perfect concrete pour every time.

playPHASE Small

Perfectly sized anchoring system for smaller features.

playPHASE Medium

Amazing flexibility for our mid-sized play features.

playPHASE Large

Extra stability for our largest freestanding splashes.

## Meet the flexible lineup of playPHASE bases and products.

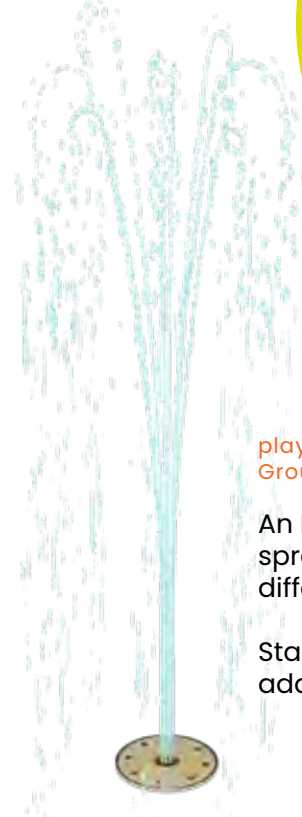

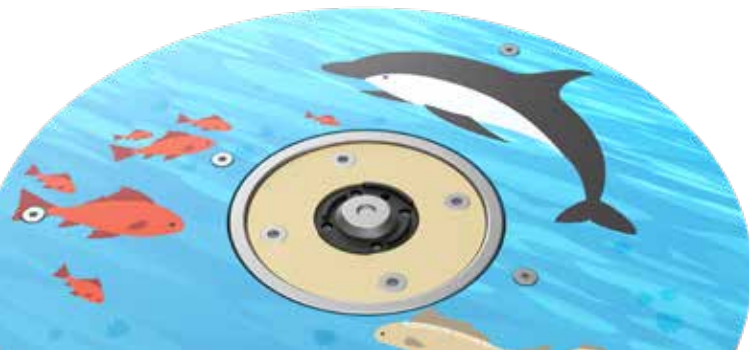

playPHASE  
Foot Activator

Hands-free activation perfect for small spaces.

playPHASE Graphic Plate

Waterplay has numerous graphic collection options available. Contact our sales team for more details.

playPHASE Small, Medium and Large  
Ground Spray Plate

An Interchangeable ground spray. Compatible with 16 different spray nozzles!

Start with a ground spray and add a play feature later!

**?** Do you have playPHASE™ bases already installed? Contact our sales team for an evaluation and recommendation for your next Waterplay feature!

**Stories come to life through colour.**

Deep blues and gentle greens, sharp reds and muted creams, each of these colours can align with your surrounding landscape, facility, adventure or moment in history to help narrate the design of your space.

Choose a unique colour palette from a variety of brilliant Waterplay colour options, or choose from one of our carefully crafted pre-set collections.

Designed to last in the elements, our super durable, lead-free powder coating is built to withstand extreme climate temperatures, moisture and UV exposure.

A yellow shower head with an orange top, attached to a teal shower pipe. Water is spraying from the shower head.

## Aqua-Knot

**Nautical**

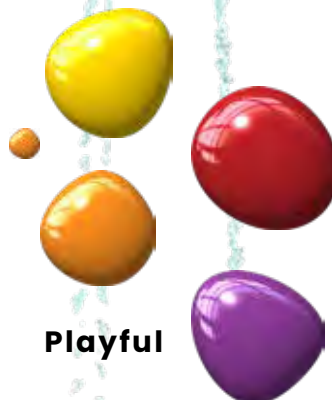

Pairing colours can be tricky and choosing combinations that work together effectively is key to the success of your design. By selecting one of Waterplay's harmonized colour collections, you can comfortably reinforce a unified, themed appearance to ensure that your next aquatic play project hits the mark.

**Lily Pad Kaleidoscope**  
graphics ignite childlike wonder in us all.

# FREESTANDING PLAY COLLECTIONS

A great aquatic play space should offer collaboration, physical movement, scientific inquiry, and make believe and challenging play opportunities, supporting the unique development stages to every Waterplayer.

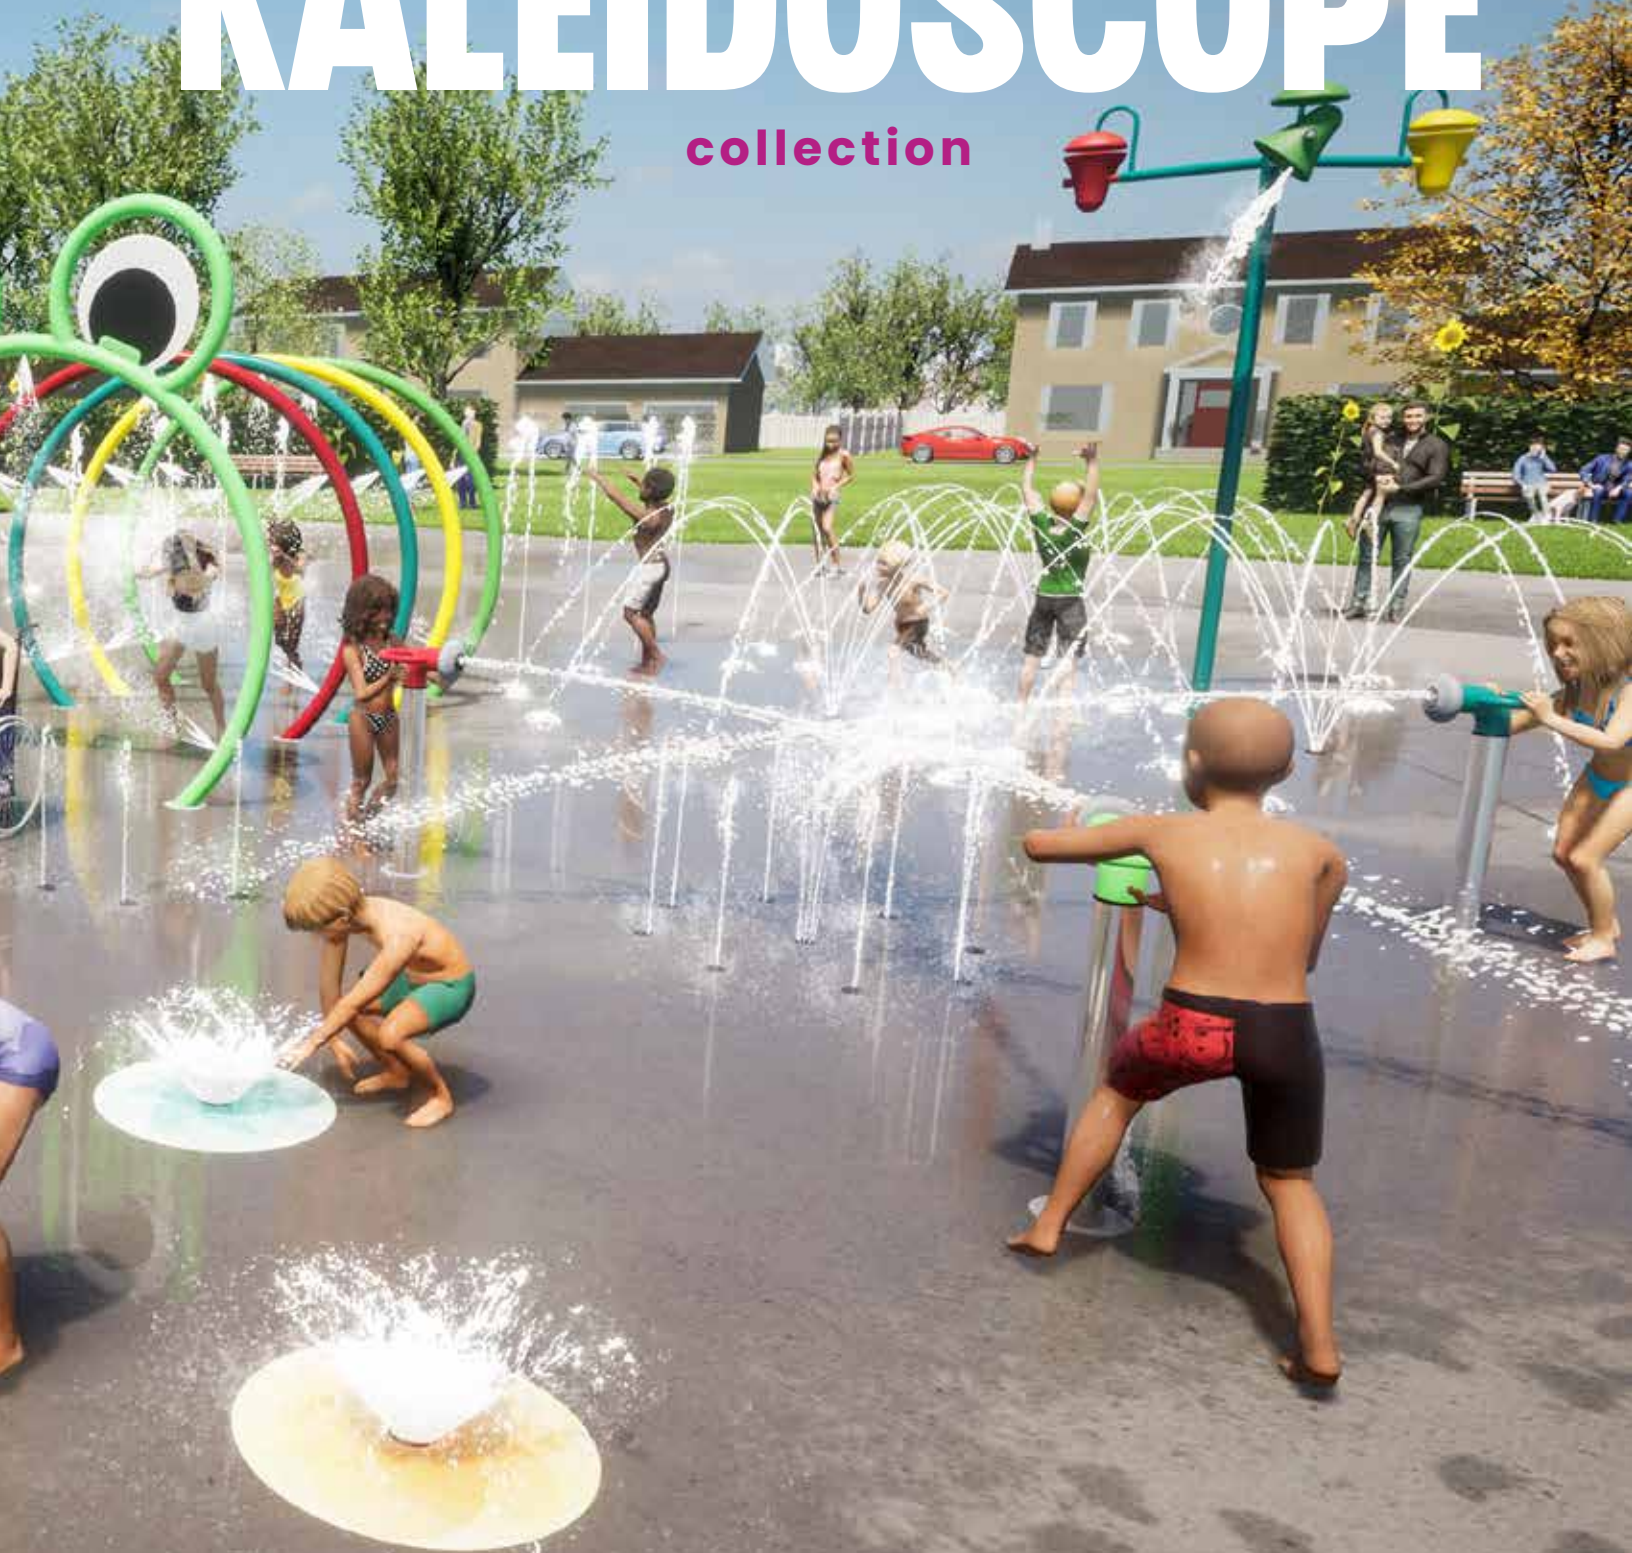

From spray cannons to larger-than-life dumping buckets, small splashes and interactive play features, Waterplay provides a wide range of products to complete any community space design, as well as enhance visitor experiences at waterparks, entertainment centres, aquatic facilities, and holiday parks!

# ACTIVITY TOWERS

There are no limits to how much fun our Activity Towers create. Designed to inspire the imagination, Activity Towers are much more than elevated slides and splashing features. They're made for solo adventurers and swarming clusters of kids of all ages. Get engaged in sensory play from down below or race to the top while dodging splashes from fellow Waterplayers. Slide your way to the bottom and chart a new adventure each and every time you climb, spray, splash, and spin.

## Activity Towers

# CLIMB, SPRAY, SLIDE, SPLASH, AND SPIN!

### Easy installation.

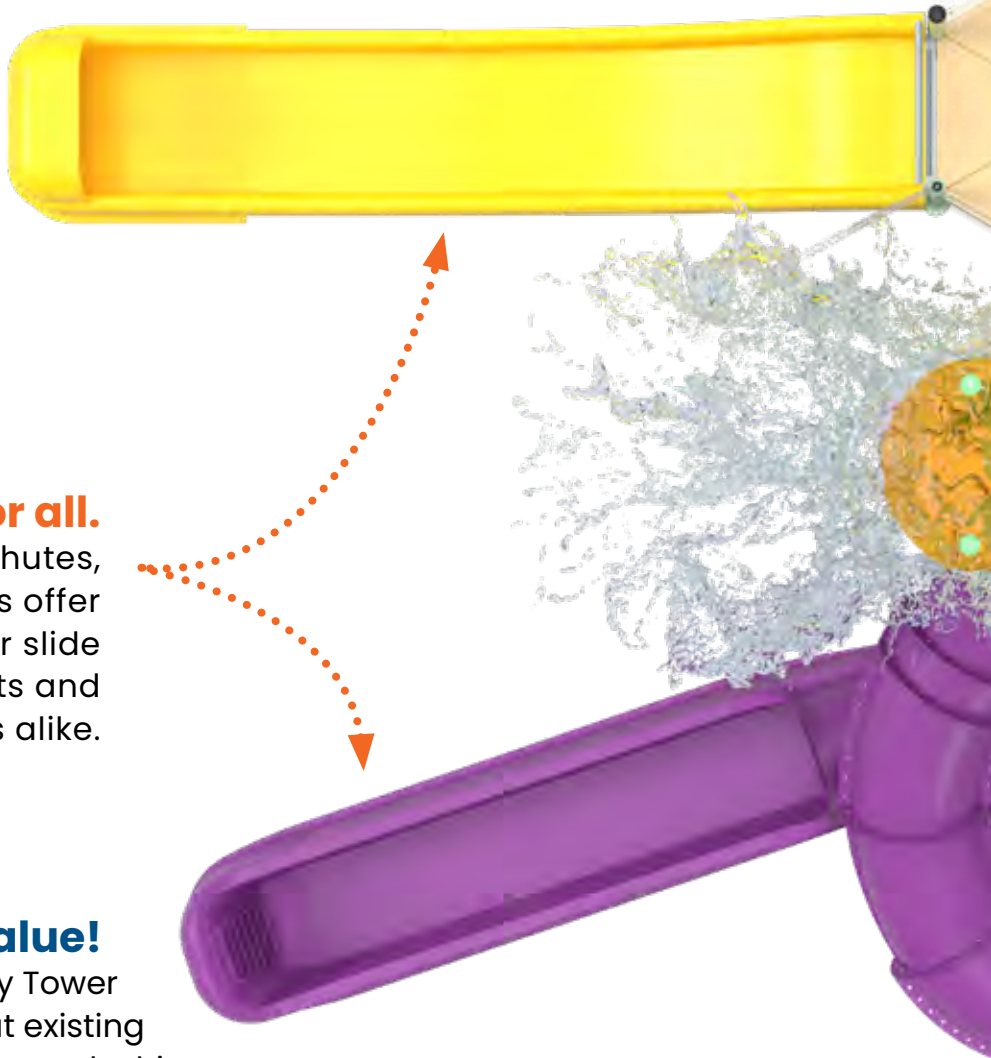

The playCONNECT™ mounting system simplifies installation with modular pieces, requiring fewer installers and allowing for phased installation to fit timelines and budgets.

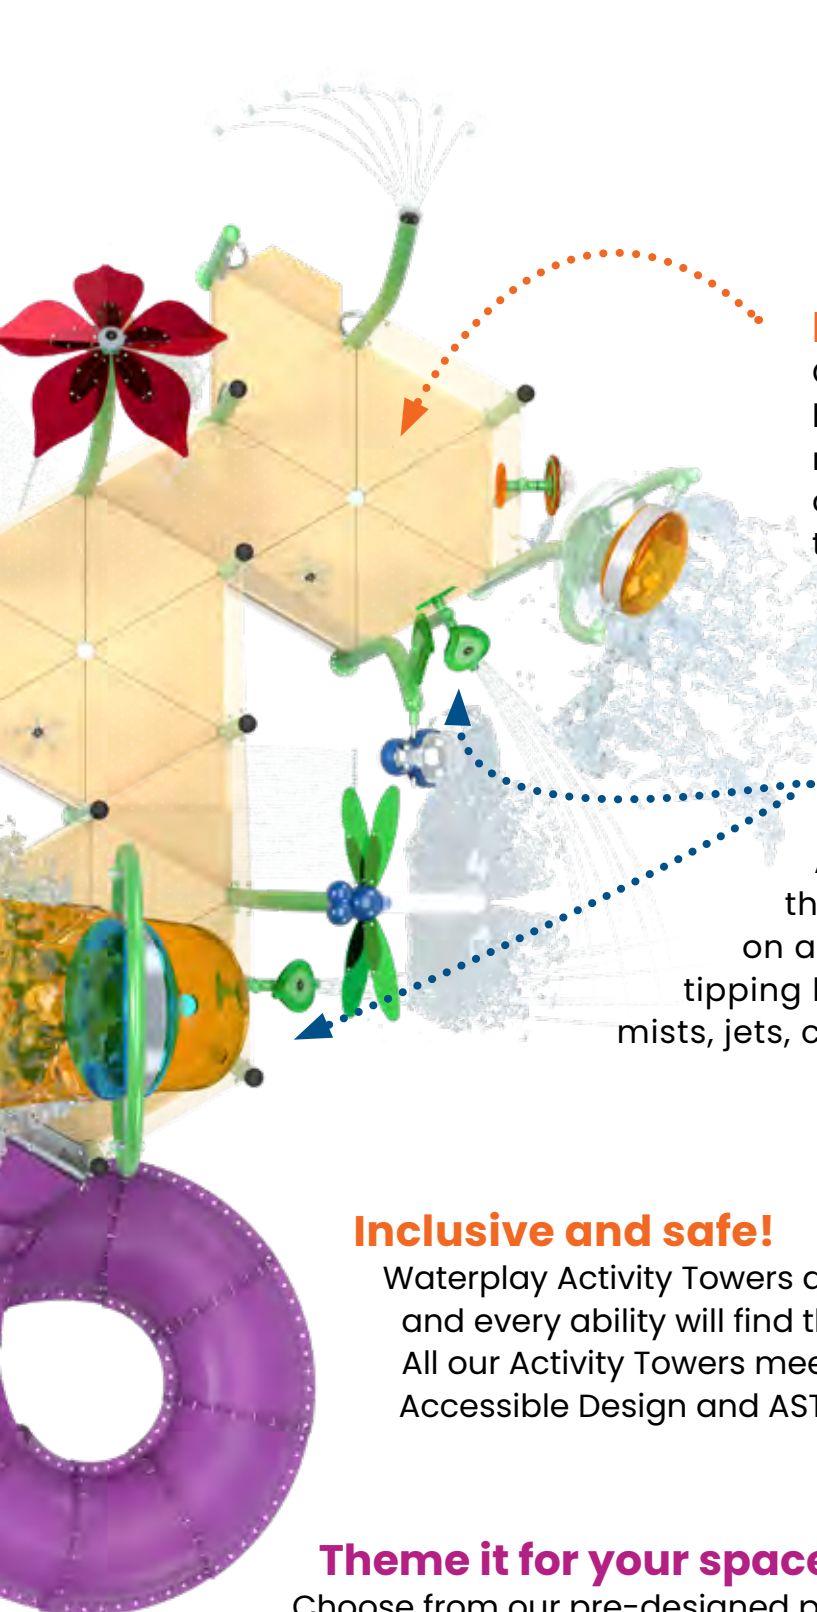

### Water slides for all.

Twists, dips, tunnels and chutes, Waterplay Activity Towers offer dynamic, full size water slide adventures for young tots and thrill seekers alike.

### Long-term value!

Revitalize your Activity Tower by easily swapping out existing features with thrilling new splashing experiences. Make your awesome play space even better down the road and keep everyone coming back for wild new adventures.

### **Durable decks.**

Our decking surface is powder coated by hand with a durable non-skid finish that not only looks amazing but stands up to countless sets of pounding feet. The built-in traction control provides a safe place to play.

### **Interactive sprays & big splashes.**

Accessible play elements and thrilling dumping buckets offer fun on and off the tower, featuring cannons, tipping buckets, interactive water sprays, mists, jets, cascading waterfalls, and more.

### **Inclusive and safe!**

Waterplay Activity Towers are designed for all. Any age and every ability will find their version of fun in the water. All our Activity Towers meet the ADA Standards for Accessible Design and ASTM Safety Standards.

### **Theme it for your space.**

Choose from our pre-designed packages or customize one to match your colours and style. Enhance the experience with Waterplay's Activity Tower graphic collections, featuring captivating colours, shapes, and patterns that inspire creativity and joy.

G'DAY PARKS ELEVATE AWARD

At the heart of the new adventure precinct, Lake Tinaroo Holiday Park's splash pad is a vibrant, zero-depth oasis, inviting people of all abilities to join the fun. Featuring a custom, multi-tiered Activity Tower with a giant soaker bucket, slides, and sprayers, it delivers high-energy excitement for everyone. Winner of the 2024 G'day Parks Elevate Award for Excellence, this all-abilities facility exemplifies inclusivity, togetherness, and lasting memories for families of all ages and abilities.

# WATER MANAGEMENT SOLUTIONS

Water management is about making the water work for the specific needs of your aquatic play design and surrounding infrastructure.

By carefully planning and implementing Waterplay's robust water treatment systems, components, and management strategies, your splash pad project can provide a safe, enjoyable, and sustainable water play experience for users while minimizing environmental impact and resource usage. With different options for every project, Waterplay can help you find the best solution for your space!

# Water Management Solutions

# COMPONENTS

**Create sustainable play spaces.**

Knowing what happens with the water is a big part of your project. Work with Waterplay to find the best solution for your space.

Power Post

playPHASE  
Foot Activator

Ringmaster

## Activators

Optimize water use and maximize play value through action-reaction play outcomes and sequencing with Waterplay's on demand activators.

Eco Activator

### The Eco Activator

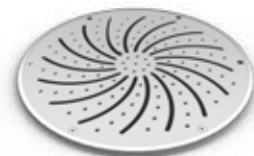

is an all-in-one water management solution for small aquatic spaces, it combines manifold and controller technology in one flush-to-grade solution.

\*Supports up to 75 GPM (284 LPM)  
For more information, please refer to the Water Management Brochure.  
Controller sold separately.

## Drains

Classic Drain

Stainless Steel Drain

Basic Controller

smartPLAY™ Controller

## Controllers

### Waterplay® smartACCESS™

Control multiple play spaces from one screen through the intuitive user interface and collect data for analyzing and reporting. Waterplay's smartACCESS connects you to what's happening at your play space anywhere, anytime.

## Manifolds

Available in 6, 9, 12, 15 and 18 valve configurations to adapt to any project size.

## Kiosks & Vaults

Above Grade Vault

Available in 6, 10, and 18 valve configurations to adapt to any project size.

Below Grade Vault

Available in 6, 10, and 18 valve configurations to adapt to any project size.

\*Tanks available upon request.

NOTE: Equipment may vary based on the requirements of the design.

# Water Management Systems

# RECIRCULATION SYSTEMS

**Our recirculation systems** are designed to go beyond industry standards, ensuring you receive the most efficient water management solution available. Simply choose the right size for your needs.

**The future of water care.**

**Water Treatment System 150**  
Up to 150 GPM | Single loop  
For small to medium splash pads.

**Water Treatment System 300**  
Up to 300 GPM | Single loop  
For medium to large splash pads.

**Water Treatment System 450**  
Up to 450 GPM | Double loop  
Best for large splash pads.

## Disinfection add-ons:

### Clear Comfort or UV

Enhance your water purification by adding secondary disinfection to your water treatment system. Protect your peace of mind with these options:

- + **Clear Comfort**  
Hydroxyl-based advanced oxidation (AOP)
- + **Ultra Violet**  
UV Low pressure

# How it works...

1

## On-Demand Activation

Waterplayers interact with the activator which triggers the controller to start the flow of water.

2

## Controller & Manifold

The smartPLAY™ Controller & manifold work together to send the water to the play space based on programmed sequences.

3

## Drain

As the water falls to the concrete play surface, the drain filters large debris and sends the water through the diverter and strainer system.

4

## Diverter & Strainer

The diverter & strainer captures debris and also redirects rainwater to reduce overall chemical consumption from the water treatment system.

5

## Holding Tank

The underground holding tank stores water that has been collected from the drains and pumps it to the water treatment system.

6

## Water Treatment System

The water treatment system is responsible for maintaining water quality through filtration and advanced disinfection techniques. After treatment, the water is reintroduced to the splash pad where it sprays back onto the concrete surface, runs down the drain, and back into the underground holding tank.

2

1

3

# Water Management Systems

## FLOW THROUGH

A **flow through system** is efficient both financially and economically for aquatic play spaces using small volumes of water. Water from a potable source is pumped directly onto the splash pad and is allowed to drain into a local sanitary or storm drain system and handled according to municipal water management strategies.

### How it works...

1

#### On-Demand Activation

Waterplayers interact with the activator which triggers the controller to start the flow of water!

2

#### Controller & Manifold

The smartPLAY™ controller & manifold work together to route the water to the play features.

3

#### Water Flows

Potable municipal water is pumped directly to the splash pad's play features through a network of pipes.

4

#### Drain

The drain leads the water away from the play space and filters large debris.

5

#### Back to Municipal Wastewater System

Water is re-introduced back into the municipal infrastructure via sanitary or storm drain systems.

# TECHNOLOGIES & MATERIALS

At Waterplay, we **CARE** about quality. Our industry-leading materials are carefully selected to ensure safe play experiences that stand the test of time. Our products are made of stainless steel and use some of the most enduring materials in the industry.

## playPHASE™

Phase your project, expand your play space and easily retrofit with playPHASE™, a flush-to-grade anchoring system that eliminates the need for toe guards and allows you to start construction early while we finish manufacturing your features.

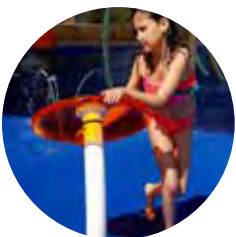

## playCONNECT™

The industry's first modular feature mounting system for activity towers simplifies the installation and reduces the need for cranes. Phase, expand, add, remove or replace features with playCONNECT™ to extend the lifetime of your structure.

## On Demand Water Activation

Optimize water use and maximize play value with Waterplay's on demand button activators. A perfect solution for reducing water consumption while creating a dynamic play experience. **Push** to start the flow of water.

## Action Activators™

Bring surrounding play features to life by **spinning** the Ringmaster or **twisting** the Whirler. Waterplay's unique Action Activators™ are the perfect blend of play value and water conservation.

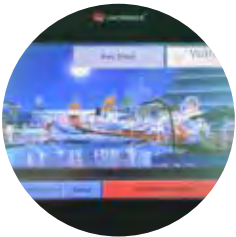

## 360° Rotational Hub

Easy movement for all ages and abilities, the 360° rotational hub features continuous and smooth movement for maximum play value.

## Aqualume™

Make a statement in your next design with Waterplay's AquaLume™, an impact resistant and durable polymer that blends colour with water and light for a truly stunning play experience.

## smartPLAY™ Controller

The controller tells the water what it should do and when to do it. Waterplay's smartPLAY™ Controller works in conjunction with the manifold and water activator to create the perfect play experience for your project.

## smartACCESS™

Waterplay's smartACCESS connects you to what's happening at your play space anywhere, anytime. Manage water for multiple play spaces from one screen through the intuitive user interface and collect data for analyzing and reporting.

## Cause & Effect Nozzles

Stimulate curiosity and team play in your play space. Interactive ground sprays erupt with a bigger and bigger spray as Waterplayers work together to plug and cover the nozzles.

SCHEDULE 10 & 40, 304 STAINLESS STEEL PIPE (316 AVAILABLE) | best performance in all environments  
MIG & TIG WELDS | superior weld strength and finish  
SUPER DURABLE POWDER COATING | superior chip and fade resistant.  
TOUGH FINISHES | defense against extreme climates, temperatures, moisture and UV exposure.  
STAINLESS STEEL HARDWARE | durable and resistant  
ACETAL NOZZLES | durable material that eliminates corrosion  
WARRANTY | industry leading for structural integrity of stainless steel piping and weldments
